Project Summary

The overall objective of the Programme is to support the Government structural reforms, in areas related to food security. This objective is in tune with the Kyrgyz Poverty Reduction Strategy Paper (PRSP) and aims to contribute to the overall effort by Government and society to reduce poverty through sustainable economic growth and development.

The specific objective (purpose) of the Programme is to assist the Government to improve the design, management, delivery and effectiveness of State programmes and services in agriculture and social protection that are aimed at reducing food insecurity.

- Public Finance reform process by promoting institutional and financial improvements towards strengthening public expenditure management.
- In the social sector, the Programme will actively contribute to the process of social policy elaboration and provide the basis for accurate targeting of social services
- The Programme will contribute to improve an economically and environmentally sustainable agriculture based on private initiative.

The expected results are, on one hand, the strengthening of the capacity of the Ministry of Labour and Social Protection (MLSP) and of the Ministry of Agriculture Water Resource and Processing Industry (MAWR&PI) to improve the linkage between MTBF process and the annual budget and particularly the relationship between the sector approach and budget preparation. On the other hand, the intervention in these two sectors will be correlated to the improvement of the public finance management through the implementation of the approved Action Plan by the Ministry of Economy and Finance (MEF) based on platform approach.

Primary beneficiary: The Government Kyrgyz Republic

Particular beneficiaries:

- Ministry of Finance
- Ministry of Labour and Social Protection
- Ministry of Agriculture WR & PI
- State land Committee

Beneficiaries : Vulnerable groups of the Population

Project Summary

The overall objective of the Programme is to improve food security and reduce poverty. The programme is based on a three-legged framework within a medium term outlook:

Contribute to macroeconomic stability and better public expenditure management and to complement the programmes of the IMF and World Bank;

Promote long term food security and ensure stable supply of food through the promotion of a favourable environment for agricultural production;

Support the development of a well targeted and sustainable social protection system.

The project purpose (objective of the contract) is to assist the Government to improve the design, management delivery and effectiveness of State programmes in Agriculture and Land Reform that are aimed at reducing food insecurity. The FSP aims at improving the policy framework in the aforementioned sectors on intervention as well as strengthening public expenditure management.

Effective implementation of FSP improved in the sector of Agriculture and in support of the land reform [fulfilment of the Policy Reform Matrix by the Government of Kyrgyzstan and timely transfers of variable and fixed tranches];

Availability and follow up of indicators and policy analysis on poverty alleviation and food security in Kyrgyzstan, specifically related to the agricultural sector and land reform;

Improved visibility and coordination with donors of EC FSP activities in Kyrgyzstan.

Primary beneficiary: Kyrgyz Government

Particular beneficiaries:

• Ministry of Agriculture, Water Resources and Processing Industry

Project Summary

The overall objective of the project is to ensure greater access to food throughout the year for vulnerable households.

The target group of the action is:
Selected 12,000 households in Shaartuz, Kabodian, Kolkhozabad, Vahksh, Bokhtar, Beshkent, Kumsangir and Pyanj districts of Khatlon Province.

The final beneficiaries of the action are populations of the above-listed districts.

Estimated results of the project are:

- Increased household crop production in the target group;
- Increased livestock assets;
- Better access to information related to food security;
- Increased access to potable water.

Main activities of the project are:

- Rehabilitation of 12 tertiary level irrigation systems and set up of WUA;
- Distribution of agricultural inputs;
- Distribution of livestock on a credit basis;
- Agricultural extension, training and advisory services;
- Rehabilitation of 15 boreholes and spring sourced piped water supply.

Project Summary

The overall objective of the project is:
Improvement of food security situation in cotton growing areas of these provinces by assisting 20,000 most vulnerable families and through strengthening sustainability of small-scale professional bread-making sector in Khatlon and Sughd provinces.

The target groups of the action are 50 small-scale bakeries and 20,000 vulnerable households in 11 cotton growing districts of Khatlon and Sughd provinces.

The final beneficiaries of the action are the populations of the above districts.

Estimated results of the project are
- farmers trained in adapted agriculture practices and rational use of inputs;
- farmers have access to self-managed rural funds, rotating savings and cash loans;
- dekhkan farms and small-scale food processing industries have access to productive investment.

Main activities of the project are:
- Importation and distribution of wheat to private bakeries and support to strengthen their sustainability;
- Provision of agricultural inputs, small-scale credit and extension services;
- Promotion of saving and credit unions.

Project Summary

The overall objective of the project is to improve rural livelihoods and food security in the mountainous areas of Zeravshan valley.

The target group of the action is more than 32,000 beneficiaries in three districts of Zeravshan valley.

The final beneficiaries of the action are family members of direct beneficiaries and local populations.

Estimated results of the project are:

- communities and user groups take full advantage of productive rural infrastructure (water supply and small-scale irrigation);
- farmer households successfully practice better and sustainable farming techniques;
- communities enabled to manage village development funds to support income-generating activities;
- technical and managerial capacities of village organisations, user groups, local authorities and project staff improved.

Main activities of the project are:

- support to construction of irrigation and water supply systems;
- provision of agricultural inputs, extension and advisory services;
- training on savings and credit fund management as well as on income-generation
- building capacity of village development organisations and user groups.

Project Summary

The overall objective of the project is to improve food security of rural communities in East Khatlon province, with specific focus on women and vulnerable households.

The target group of the action is 5,317 beneficiaries in Sovietsky, Kulyab and Vose districts of Khatlon province.

The final beneficiaries of the action are populations of the above-listed districts.

Estimated results of the project are:

- improved access to a/c inputs, markets and land;
- increased and diversified households' fresh produce;
- improved early warning and preparedness to react to emergencies.

Main activities of the project are:

- enhance community-based marketing strategies and access to agricultural inputs;
- increase and diversify food production from small land plots;
- promote and consolidate organisation of rural communities;
- advocate for pro-poor and gender specific changes in policies and practices of access to and use of land;
- early warning of food insecurity through monitoring household indicators.

Value: 644,443 €

Contractor: STICHTING CARE NEDERLAND

Project Summary

CARE proposes to improve access to food for vulnerable farmers in the Jilikul district, Khatlon oblast, Tajikistan

The action will take place in Jilikul district, Khatlon region of the Republic of Tajikistan

The target group of the action is the vulnerable population of rural villages. Direct beneficiaries include 5,000 poor and marginalized dekhan farmers with indirect beneficiaries totalling more than 20,000.

The project will enhance the capacity of the farmers in target communities to address development issues including community organisation and planning, land reform, land/farm management and rights.

Agricultural productivity and crop diversification will be improved through increased access to agricultural inputs, improved quality of lands and improved farming techniques.

Cross cutting issues including gender, human rights and environment will be integrated into project activities.

Project Summary

The overall objective of the Programme is to improve food security and reduce poverty. The programme is based on a three-legged framework within a medium term outlook:

Contribute to macroeconomic stability and better public expenditure management and to complement the programmes of the IMF and World Bank;

Promote long term food security and ensure stable supply of food through the promotion of a favourable environment for agricultural production;

Support the development of a well targeted and sustainable social protection system.

The project purpose is to assist the Government to improve the design, management delivery and effectiveness of State programmes in Agriculture and Land Reform that are aimed at reducing food insecurity. The FSP aims at improving the policy framework in the aforementioned sectors on intervention as well as strengthening public expenditure management.

Effective implementation of FSP improved in the sector of Agriculture and in support of the land reform [fulfilment of the Policy Reform Matrix by the Government of Tajikistan and timely transfers of variable and fixed tranches];

Availability and follow up of indicators and policy analysis on poverty alleviation and food security in Tajikistan, specifically related to the agricultural sector and land reform;

Improved visibility and coordination with donors of EC FSP activities in Tajikistan.

Primary beneficiary: Government of the Tajikistan

ID_contract: 109472 ongoing from 17/10/2005 to 31/12/2008

Code décision: FOOD/2005/017-333

Name: Food Security Programme Tajikistan 2005

Value: 7,000,000 €

Contractor: JUMHURII TOJIKISTON

The overall objectives of the Programme are to improve the livelihoods of the most vulnerable groups and to contribute to the poverty reduction.

The programme is based on a three-legged framework within a medium term outlook:

- Macroeconomic stabilization and better public expenditure management
- Promotion of long term food security, food production and supply, crop diversification, rural incomes through the promotion of a favourable environment for agricultural development.
- Development of a well targeted and sustainable social protection scheme.

The Programme purpose is to assist the Government to improve the design, management delivery and effectiveness of national programmes in agriculture and social protection that are aimed at reducing food insecurity. The FSP aims at improving the policy framework in the aforementioned sectors on intervention as well as strengthening public expenditure management.

Agriculture

The completion and put in operation of strategies to enable a sustainable development of the sector and increase the performance of key programmes and services run by the Ministry.

Land Reform

The protection and enforcement of the property rights of smallholders and the development of the capacity of the State Land Committee to accelerate and monitor the process of land reform

Social sector

To strengthen the link between strategies, policies and budget allocation and to improve the quality of the programmes and services provided by MoLSP through a proper costing, budgeting and monitoring system.

Public Finance Management

Improved prioritization of policies and better resource allocation in the budget process as well as strengthened budgetary execution, fiscal reporting and budget transparency

Better financial accountability, primarily through improved internal audit functions in the public administration

Improved monitoring and evaluation capacities in the relevant ministries so that the impact of public expenditure on the achievement of sectoral goals may be measured.

Project Summary

The Overall Objective of the project is to contribute to effective and efficient implementation of the National Development Strategy (long term development strategy) and subsequent Poverty Reduction Strategy (medium term development strategy), particularly in the areas of Public Finance Management and Social Protection.

The purposes of this contract are twofold:

- . Public Finance Management: strengthened linkages between sectoral policies, medium term expenditure framework and annual budget allocations with a special focus on budget preparation and execution.
- . Social Sector: improved and monitored quality of the performances and services provided by the MoLSP through strengthened links between the "Social Services Development Strategy" and annual budget allocation (proper costing of key budget units) and sector MTEF

- Effective implementation of the EC Budgetary Support Programme by the Government (fulfilment of the conditions and targets set in the Policy Reform Matrix - and timely transfer of the fixed and variables tranches.)
- Effective coordination with IFIs and other development agencies in the area of Public Finance Management and through this coordination mechanism, an increased visibility of the EC interventions in the sector of Public Finance Management
- Development of performance assessment framework that covers the activities, outputs and outcomes of the programme taking into account its cost-effectiveness and its operational mechanism based on clients consultation.

Primary beneficiary: The Government of the Republic of Tajikistan

Particular beneficiaries:

- Ministry of Finance
- Ministry of Labour and Social Protection
